

ESCGP-2 DEP Planning and Permitting Training Tuesday, April 8, 2014

Continuing Education Credits Available!

The Marcellus Shale Coalition in conjunction with its Surface Use Committee is pleased to offer to all oil and gas industry stakeholders the opportunity to attend an ESCGP-2 DEP Planning and Permitting Training.

This training will cover topics related to the planning and permitting of projects requiring coverage under the Pennsylvania Department of Environmental Protection's (DEP) ESCGP-2. The primary focus will be tips to assist in the preparation of an administrative and technically complete permit package. Through a partnership with the MSC, the DEP has developed ESCGP-2 Model Plans with the intent of streamlining the preparation of and review of permit packages. These Model Plans also will be introduced at this training.

DEP representatives and industry representatives will educate attendees on technical issues for use in preparing an ESCGP-2 package as well as how to handle these projects after construction has commenced.
