

## **Marcellus Shale Coalition Guidance to Operators on Outreach During COVID-19 Event**

Businesses and communities across Pennsylvania have been impacted by the ongoing COVID-19 event, including Gov. Wolf's recent stay-at-home order for certain counties and the cessation of business operations unless considered life sustaining.

As companies navigate through these challenging times, operators may wish to consider the following outreach:

### Contact:

- Vendors
- Landowners
- Local PennDOT officials
- State and local police as well as first responders
- Various community contacts, such as key municipal employees
- Local elected officials, including members of Congress, state legislators and municipal officials

### Information to consider sharing:

- Location and nature of ongoing operations
- Traffic expectations
- Other measures you are taking to minimize the spread of COVID-19, such as limitations on personnel and standards for social distancing
