

WELL CONTROL & INCIDENT MANAGEMENT WORKSHOP AUGUST 31, 2022

SPONSORED BY:

The Marcellus Shale Coalition's Drilling, Completions, Well Site Facilities and Production Committee in partnership with Deep Well Services are pleased to offer a Well Control and Incident Management Workshop. The program will include facilitated hands-on experience with a snubbing simulator, interactive discussions, case studies from Marcellus and Utica Shale based incidents, and development of well control emergency response plans. Visual aids and training tools will be utilized to facilitate discussions and provide an overview of specific lessons learned in the field.

Join oil and gas industry stakeholders for this interactive workshop that will offer participants the opportunity to learn about the complexities of well control and incident management tips, tools and hands on onboarding techniques.

PROGRAM

8:30 am – 9:00 am	Registration and Continental Breakfast
9:00 am – 10:30 am	Snubbing Well Control 101 – Basic Principles and Overview of a Hydraulic Completion Operation
10:30 am – 10:45 am	Break
10:45 am – 11:45 am	Snubbing Well Control 102 – Managing Pressure in Live Well Interventions
11:45 am – 12:15 pm	API Q2 Overview and Incident Management
12:15 pm – 1:15 pm	Lunch
1:15 pm – 2:00 pm	Monitoring Casing Pressures, Well-to-Well Communication Prevention and Torque & Drag Modeling
2:00 pm – 3:00 pm	Industry Case Studies
3:00 pm – 3:15 pm	Break
3:15 pm – 4:00 pm	Panel Discussion and Q&A
