

### **What is United Shale Advocates®?**

United Shale Advocates® (USA) is an online neighborhood for committed advocates of shale gas and those who want to learn more about the industry. We are farmers, landowners, homemakers, public safety officers, small business owners, professionals, union members, and we come from all corners of our great Commonwealth. By belonging to USA, you will have the opportunity to weigh in on critically important issues and make sure your role – and your support for Pennsylvania shale gas development – is heard.

### **What is the role of a member of USA?**

Significant public policy and development decisions are routinely made at the local, state and federal levels which impact the ability to safely and responsibly develop Pennsylvania's natural gas resources.

It is important that elected officials and other policymakers hear from 'real people' – those who live and work in the communities impacted by these decisions. By belonging to USA, you will be in a position to receive important and timely information and take action in support of Pennsylvania shale gas development and the men and women who rely upon this industry.

### **How can I become a member of USA?**

It's easy! To become a member of USA, please visit [www.unitedshleadvocates.org](http://www.unitedshleadvocates.org) and click "Join the Movement". You will be prompted to enter your name and contact information, including home and work addresses, company (if applicable) and email address.

### **Why does USA need my home and work address?**

Sometimes an action or policy matter may apply to the entire Commonwealth of Pennsylvania; other times it is applicable only to a specific geographic area. By having your home and work addresses, USA is able to identify members who live or work within a specific region impacted by that decision and urge them to take action with their local elected officials.

### **How can I contact USA?**

If you have questions about USA or would like to learn more, please send an email to [usa@shleadvocates.org](mailto:usa@shleadvocates.org).
